## BRAAS WELCOMES OMRON

Omron recently appointed Braas Company as the new Premier Omron Distributor for Illinois. Omron's premier distributor program is their classification for the top highly technical distributors of which Braas' Minnesota location has been a Omron premier distributor for the past two years. The addition of Omron's \$6 billion global electronics and industrial electrical product line, will allow us to offer solutions to our customers for the most demanding application challenges. Omron offers valuable and useful solutions with sensing and control components for:

Automation    Control    Safety  
Switching    Motion Drives    Sensing

Omron is also RoHS compliant since 2005. With our extensive Omron inventory and experience, we look forward to working with you in the future.

## BRAAS COMPANY HIRES OMRON SPECIALIST

We welcome Howie Thomas, a long-time motion controls specialist and recently an Omron corporate trainer. He received his bachelors degree from the New Jersey Institute of Technology in 1976 with a concentration on digital electronics and process control. With several years of experience in industrial controls, Howie has the unique perspective of extensive practical experience combined with the ability to understand controls at the board and systems level. Howie will be supporting customer needs through systems component expertise, application support, and training. To find out about our training schedule or for specific needs your company may have regarding on-site training, please e-mail Howie at [howie.thomas@braasco.com](mailto:howie.thomas@braasco.com).

**SMC NEWS**

SMC introduces AR and AW series filters and filter-regulators with an integral digital pressure switch. This space-saving economical design saves users the hassle of connecting a separate switch while providing greater accuracy/functionality than our ISI000 modular pressure switch. The convenient two-color LED display, eliminates the need for a gauge as well as providing a quick indication of operation based on the color displayed. A majority of normal configurations are stocked in NPT with both PNP and NPN outputs available.

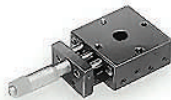

**BRAAS WELCOMES DEL-TRON**

Del-Tron recently announced the appointment of Braas Company to distribute in Illinois. Del-Tron supplies precision stages and linear motion devices that can be applied to standard or highly customized solutions to meet your restricted space needs.

Del-Tron offers:

AIR ACTUATORS

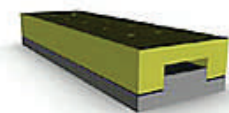

POSITIONERS

POSI DRIVES

RECIRCULATING SLIDE GUIDE

TABLES (CROSSED ROLLER)

RAIL SET

SLIDES

To find out more about Del-Tron contact a product specialist today at 847.760.6630

**RITTAL TOP THERM AIR CONDITIONERS**

Summer time usually raises the temperature in plants often causing increased temperatures on shop floors and inside control cabinets. Rittal has an excellent line of domestically built air conditioners for cooling enclosures. This product is competitively priced, fully stocked and has a newly improved design. The latest design includes RiNano®: an innovative finish for long lasting cooling performance. The condenser coils in all TopTherm Plus air conditioners featuring Rittal's glass-like RiNano® coating to prevent dust and dirt build up. This highly innovative nanotechnology means less maintenance is required, because the condenser coils stays cleaner for longer periods and ensures consistent performance in even the harshest environments.
